FOREWORD

The Report on the All India Survey on Higher Education (AISHE) for the year 2012-13 will no doubt prove extremely useful for analysts. It is a well recorded fact that an extensive database of statistics plays a critical role in providing decision makers as well as the stakeholders in this sector with an opportunity to make informed decisions and plan for the future. In keeping with the same spirit, the Report will bring about a better understanding of the present scenario in the Higher Education System in the country. The Report will also provide useful information upon which the Government would be able to plan the future investment in the field. I am confident that the AISHE document would be helpful in planning the future of education system.

I extend my heartfelt congratulations to the Institutions of Higher Education, the Regulatory Bodies and the State Governments for their enthusiastic participation in this Survey. I would also like to appreciate the work put in by the Statistics Division of the Ministry of Human Resource Development and National Informatics Centre in making the Survey a success.

(**Vinay Sheel Oberoi**)

Preface

The Report of the All India Survey on Higher Education (AISHE) identifies and captures various aspects of all the institutions of Higher Education in the country. The key idea behind this Survey and the resulting document is to prepare a sound database on the largely diverse system of Higher Education in the country. The Survey compiles and manages the statistics submitted directly online by the respondent institutions. The report brings out the official data collected on a large number of parameters from the Universities, Colleges and Stand Alone Institutions, in all sectors of Higher Education in the country. The Report also holds an immediate significance as it creates awareness of the status of Higher Education system and its growth.

The Survey is a step towards gathering relevant statistics that could guide Government of States and the Central Government in devising future policies. After completing the first year of the survey successfully, the AISHE has become the annual exercise of data collection on higher education. During 2012-13, 656 Universities, 25138 Colleges and 5749 Stand Alone Institutions have uploaded the performa on the AISHE web portal. This survey is unique in the sense that the entire effort has been voluntary, based on motivation of respondents and without any statutory mandate in place for collecting information of this nature. The simultaneous input of data by the respondents so far has given the best ever information on Indian Higher Education across sectors.

I extend my gratitude to all the respondent Institutions, especially Universities that have played a key role in providing data as well as in facilitating data uploading from colleges, which are academically associated with them. I am also thankful to the Regulatory Authorities - University Grants Commission, All India Council of Technical Education, Medical Council of India, Indian Nursing Council, Indian Council of Agricultural Research etc. and the State Governments. Their active participation in the Survey, right from facilitating the preparatory work to sensitizing respondents to the collection of statistics, is appreciated. A work of this nature, would not have been possible without the formidable technical support from the NIC, which has dedicated several teams of experts for looking after the technical aspects of the Survey.

CHAPTER I – INTRODUCTION

All India Survey on Higher Education (AISHE) was initiated in 2011 during which data for the year 2010-11 was collected. The survey was utmost necessary as none of the source of data on Higher education was giving complete picture of higher education in the country. Also, there were many important parameters on which data is required for policy making but either no data was available or incomplete data was available. For the first time all the major Stakeholders in Higher Education such as University Grants Commissions, All India Council for Technical Education, Medical Council of India as well as State Governments participated in the data collection exercise. The entire survey was conducted through electronic mode and a dedicated portal http://aishe.gov.in was developed for the purpose, thus making the exercise completely paperless. The survey covered all the Institutions in the country engaged in imparting the higher education. Data is being collected on several parameters such as teachers, student enrolment, programmes, examination results, education finance, infrastructure etc. Indicators of educational development such as Institution Density, Gross Enrolment Ratio, Pupil Teacher Ratio, Gender Parity Index etc. are calculated from the data collected through AISHE. These are useful in making informed policy decisions and research for development of education sector.

1.1   Steering Committee & Working Group: The XII Plan categorically highlighted the need for a strong current and comprehensive data for evidence-based policy making and effective planning. The Plan document also took note of the All India Survey on Higher Education initiated by the Ministry of Human Resource Development and indicated that it can provide useful insights and can be the first step towards creating a comprehensive higher education data management system. Keeping this in view, a new plan scheme Higher Education Statistics & Public Information System (HESPIS) has been approved in XII Five Year Plan. With a view to ensure coordinated approach to all these efforts, particularly data collection efforts and benefit from synergy in such efforts, a Steering Committee for Higher Education Statistics & Public Information System has also been constituted under the chairmanship of Secretary (Higher Education), MHRD and different stake-holders as members. The notification on constitution of the **Steering Committee** and its Terms of Reference is given at Annexure-1.

A working Group has also been constituted under the chairmanship of Joint Secretary (Higher Education), MHRD to provide Technical Guidance for the proper conduct of the survey. The Working Group functions under the ambit of Steering Committee. The

notification on constitution of the **Working Group** and its Terms of Reference is given at Annexure-2.

1.2 Identification of Institutions for Coverage–The Institutions have been classified in following 3 broad categories

- University & University Level Institutions i.e. the Institutions which are empowered to award degree under some Act of Parliament or State Legislature.
- Colleges/Institutions which are not empowered to provide degree in its own name and therefore are affiliated/recognised with Universities.
- Stand-alone institutions (not affiliated with Universities) which are not empowered to provide degree and therefore run Diploma Level Programmes. During the survey, 5 types of such Institutions have been covered. These are, (i) Technical such as Polytechnics & (ii) Post Graduate Diploma in Management recognised by AICTE (iii) Teacher Training such as District Institute of Education & Training recognized by National Council for Teacher Education (iv) Nursing Institutes recognized by Indian Nursing Council and (v) Institutes directly under the control of various Central Ministries.

1.3 Reference Period for AISHE 2012-13: Reference date for filling up the Data Capture Formats is *30ᵗʰ September, 2012*. The number of institutions, teachers and students has been recorded on the basis of their actual number as on 30ᵗʰ September, 2012.

Information in respect of Examination Result has been collected for the students passed out/awarded degree *on or before 30ᵗʰ December 2012 for the academic year 2011-12.*

Financial Information has been recorded for the financial year i.e. *1ˢᵗ April 2012 to 31ˢᵗ March 2013.*

1.4 Formulation of Concepts & Definition and Instruction Manual: All the terms generally used in higher education such as University, college, programme, discipline, faculty, department have been clearly defined in the instruction manual, which also includes item-wise instructions to fill the forms. Concepts and Definitions used in the survey are given at Annexure-3.

1.5   List of Higher Education Institutions: During 2010-11 the lists of all the Universities and Stand-alone Institutions have been prepared by adopting the following method:

- Consulting the websites of the State Government Departments, Ministries and Institutions.
- Consulting all the Central Ministries, Councils and State Governments for providing the list of Institutions under their control.

Different colleges are regulated with different regulatory bodies. There are some colleges whose programmes are recognised by more than one regulatory body. To avoid duplication or omission, University was identified as best source to prepare the list of colleges. Thus, College list was dynamically generated through University during the AISHE 2010-11.

From 2011-12, following mechanism was adopted to update the list

.   List of Universities through State Governments, Central Ministries, UGC and self disclosure by the Universities, which is to be verified by the Act of the University.

.   List of Colleges through Universities

.   List of Stand Alone Institutions through respective Councils, State Governments and Central Ministries

An online module has been developed for this purpose. Apart from addition and deletion, module has been developed to affiliate and de-affiliate colleges which maintain the identity of the college even after shifting from one University to other. A provision has also been made for those colleges which are upgraded to University so that there is always a backward linkage.

1.6   Partner Agencies – Statistics Division of MHRD was involved in providing technical support, which includes preparation of DCF, providing training in workshops, assisting National Informatics Centre (NIC) in software development etc. The software support was provided by NIC. Several regulatory authorities also took part by instructing their institutions for providing information in the survey.

Nodal officer has also been appointed in each State to coordinate the survey work. Most of the States have nominated Higher/ Technical Education department as Nodal department/ agency for coordinating the Survey. However, Chandigarh, Jharkhand, Kerala, Odisha, and Puducherry have engaged agencies/ Department other than Higher/ Technical Education Department. Along with State nodal officers, 3 more

nodal officers, one each from Directorate of Technical Education (for Polytechnics), SCERT (for DIETs and Teacher Training diploma level institutions) and State Nursing Council have also been appointed to co-ordinate with Standalone Institutions. The names of these State Nodal officers and University Nodal Officers (Affiliating) are shown at Annexure-4 and Annexure-5

1.7 **Mode of Survey -** A dedicated portal (http://aishe.gov.in) has been developed with the help of National Informatics Centre (NIC) for collection & compilation of the data. All the Institutions need to register on the portal for accessing the portal and uploading its data. The registrations of the Institutions are approved by appropriate level of officers at State/ Central Level and in case of colleges, by University nodal Officers. The e-version of DCF has been prepared in such a manner that it expands according to the structure/size (Number of Faculties/ Departments, Programmes, etc.) of the Institution. The Data Capture Format is downloaded from the portal, filled off-line and then filled-in DCF is uploaded, which has made it completely paper-less. DCF has been designed in such a manner that no manual aggregation is required at any level. No investigator is sent to the Institution to collect the data. In fact the nodal officers appointed by the Institutions themselves are the Investigator and they are responsible for filling up the DCF and uploading it on the portal. This eliminates the duplication of effort in data entry once form is uploaded by the Institution. Once data is uploaded by the Institutions, data compilation is done automatically in pre-designed formats. One unique feature is that the filled in DCFs are always available on the portal, which can be seen by the Institutions and higher level authorities and can be modified, whenever required, till survey is closed.

1.8 **Duration of the Survey –** AISHE 2012-13 started in the month of September, 2013 and continued till January, 2015. In between Survey for the year 2013-14 and 2014-15 were also launched on 17th June, 2014 and 22nd October, 2014 respectively. One of the special features is that data, such as basic details, name of faculties/departments and list of programmes can be pre-filled in future survey DCF from the previous filled in DCF with an option to edit pre-filled data.

1.9 **Institutions Uploaded Data under Survey –** In AISHE 2012-13, 656 Universities, 25138 Colleges and 5749 Stand Alone Institutions; have uploaded the form on the portal. However, in addition to the actual response received during AISHE 2012-13, data has been pooled from the AISHE 2010-11 and 2011-12 for the Institutions whose name existed in 2012-13 but has not submitted data so far. So the results are actually

based on response from a larger number of institutions than the actual response of 2012-13 survey which can be seen from the following Table.

	University	Colleges	Stand Alone
Total	667	35525	11565
Response in AISHE 2012-13	656 (98%)	25138 (71%)	5749 (50%)

List of Universities, which did not upload the data during 2012-13 is also shown at Annexure-6.

2. 1.3 Stand Alone Institution

Stand Alone Institutions can be categorised into 5 categories as described below:

Type I- Diploma Level Technical Institutes such as Polytechnics, which are generally recognised by All India Council for Technical Education (AICTE) and administered by State Directorate of Technical Education.

Type II- Diploma Level Teacher Training Institutes including District Institute of Education & Training (DIETs) recognised by National Council for Teacher Education (NCTE) and generally administered by State Council for Education Research & Training (SCERT).

Type III- Diploma Level Nursing Institutes recognised by Indian Nursing Council (INC) and generally administered by State Nursing Council/Boards.

Type IV- PGDM (Post Graduate Diploma in Management) Institutes recognised by AICTE

Type V- Institutes directly under the control of various Central Ministries

Not only among States number of these Institutions varies largely, their responses are also much varied. Out of 11565 Stand Alone Institutions, 6880 (including pooled data from 2010-11 and 2011-12) have uploaded the data during 2012-13 survey. Type wise details are as under

In Gujarat and Chhattisgarh Polytechnics have been affiliated with the University and therefore they have not been counted as Stand-Alone Institution. The Polytechnics in these 2 States have been included in the Colleges.

Figure 5: Share of Private sector in different type of Stand Alone Institutions
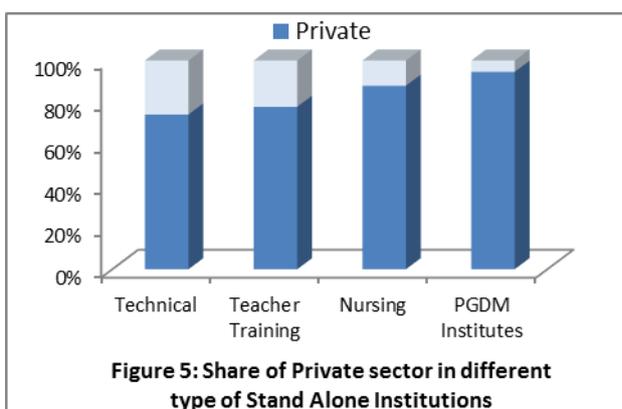

Stand Alone Institutions are mainly run by Private sector (77%); Private unaided – 67% & Private aided – 10%. Only 23% Institutions are in Government sector. 59% Institutions are located in Rural Area.

2.2 STUDENT ENROLMENT

2.2.1 Level-wise Enrolment

Total Student enrolment has been classified in 8 levels viz – Ph.D., M.Phil., Post Graduate, Under Graduate, PG Diploma, Diploma, Certificate and Integrated. Percentage share of student enrolment in these levels are shown in Figure 6. State-wise and level-wise estimated student enrolment is given in Table 6. State-wise student enrolment through regular mode at various level is given in Table 6 (a).

Figure 6: Student Enrolment by Levels
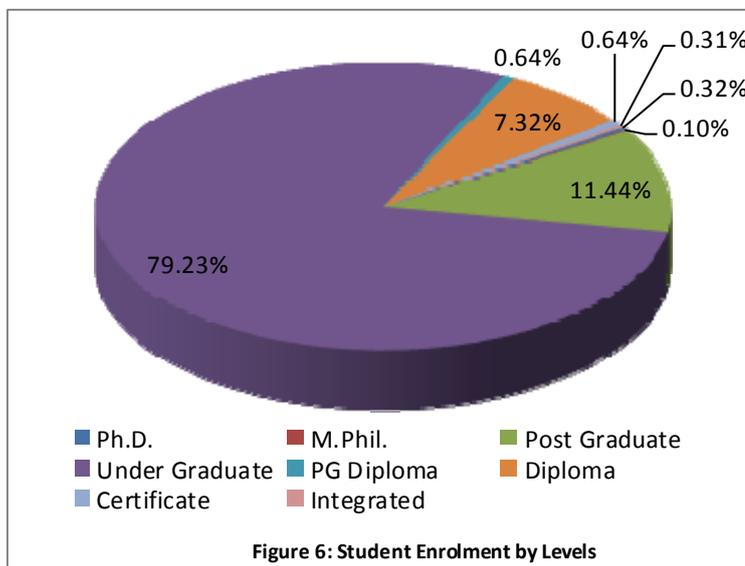

The highest numbers of students are seen enrolled at Under Graduate level across India. Out of the total 3,01,52,417 students, a vast majority of 2,38,90,309 students are enrolled in Under Graduate that is a sweeping 79.2%. On the other hand, second to Under Graduate, 11.44% students are enrolled in Post-Graduation which is approximately 34.5 lakh students. The student enrolment from UG going higher to PG is thus decreasing steeply. There is a small share of 7.32% students enrolled at Diploma level in India that amounts to around 22.1 lakh students and out of this majority students are enrolled in Technical, Teacher Training and Nursing. However, a small share of only 1.9 lakh students are enrolled each at Certificate and PG Diploma levels, constituting approx. 0.6% of the total share at each level. Ph.D., M.Phil. and Integrated levels also have less than 0.5% student enrolment at each level. Out of the major 10 States, the leading 3 are Tamil Nadu with 8.16% SCs and 0.33% STs, Maharashtra with 9.0% SCs and 1.3% STs and Karnataka with the highest 6.6 % SCs and 1.76% STs.

As mentioned above, another significant representation in terms of gender distribution is the number of female teachers per 100 male teachers. At the all-India level there are 64 female teachers per 100 male teachers. Similarly, in SC category the female teacher is 53 per 100 males teacher and in case of ST and OBC, it is 63 and 62 females per 100 males respectively. For Muslim minorities, it is 52 female teachers per 100 male whereas for other minorities, there are 135 females per 100 male. However, it is to

Figure 22: Teachers: Female per 100 Male by Social and Religious Categories

be noted that female representation in teachers belonging to Persons with Disabilities (PWD) category is low, that is 45 females per 100 male teachers.

Figure 23: Teachers: Post-wise Distribution

Figure 24: Female per 100 Male Teacher by Position
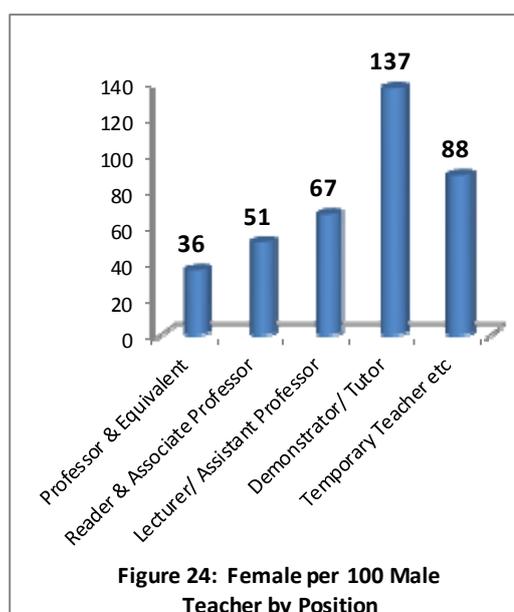

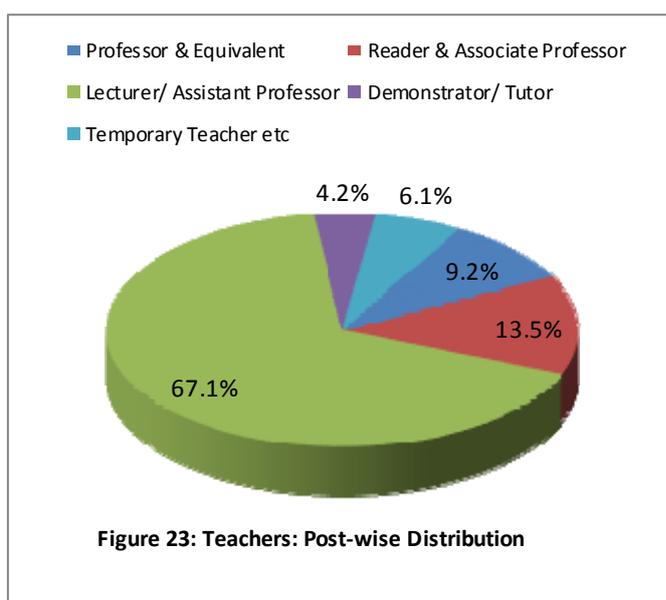

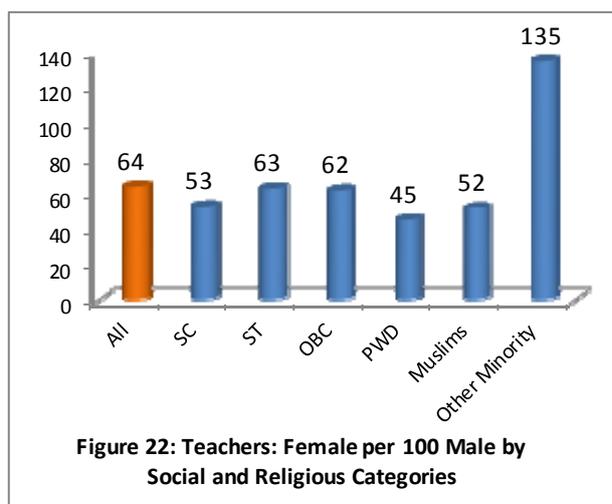

Among various levels of posts, majority of teachers are of the level of Assistant Professor, followed by Associate Professor. The distribution is shown in Figure 23 and the number of female teachers per 100 male teachers at various levels is shown in Figure 24. The state-wise number of teacher at various levels are given in Table 22. The higher the post, lower representation of female is clearly seen from the Figure.

The number of total teachers at University level is around 1.44 lakh out of which 68% are males and 32% are females. At college level, the number of teachers is 10.4 lakh with 60% of male teachers. In Standalone institutes, total number of teachers is 1.29 lakh with 60.21% male teachers. Looking at female per 100 male teachers, there are 47 teachers at University level, 66 female teachers per 100 male teachers at college and Stand Alone Institutions each.
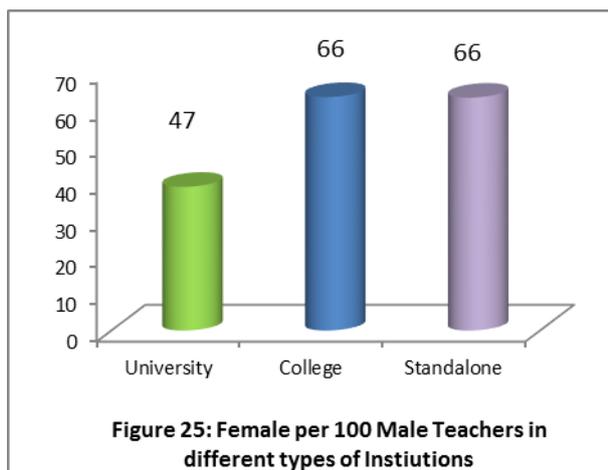

Figure 25: Female per 100 Male Teachers in different types of Instiutions

In different types of Stand Alone Institutions, the number of female teachers per 100 male teachers is varying significantly as there are only 44 female teachers per 100 male teachers in Technical/ Polytechnic Institutions, 69 in Teacher Training, 71 in PGDM Institutions and 18 in Institutions under Ministries which is the lowest. Contrast to this, nursing courses has 427 female teachers per 100 male teachers which is the highest among all the types.
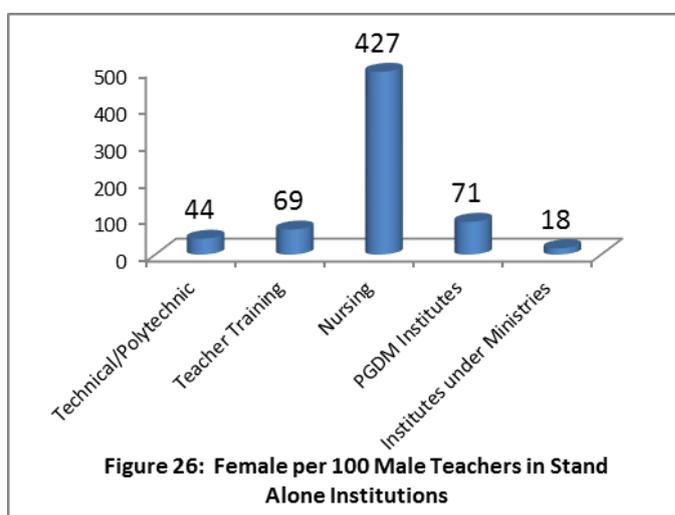

Figure 26: Female per 100 Male Teachers in Stand Alone Institutions

2.4.1 Pupil Teacher Ratio

Taking into account all types of Institutions (University, Colleges & Stand-Alone Institution), Pupil Teacher Ratio (PTR) at All India level comes out to be 23 and 20 if only regular enrolment is considered. In case of University and its Colleges PTR is slightly higher 24 and 21 respectively. It has been observed that, PTR in University along with its Constituent Unit has improved significantly (16) in case of Regular Mode. However, for Distance Enrolment PTR is 41,

Pupil Teacher Ratio (PTR) in Universities and Colleges is 24

which is also very high. Looking at the State-wise variation, it is seen that there are a large variation among States. PTR is less than 10 in Sikkim and more than 40 in Bihar and Jharkhand. Among top 6 States in terms of Enrolment, Uttar Pradesh has the

highest PTR 36 followed by West Bengal 35. State-wise details of PTR are given in Table 25.

2.5. NON-TEACHING STAFF

The non-teaching posts in responding Institutions are 9,00,592 and are divided into four groups – A, B, C and D. The share of Group-C is the highest with 40%, while Group-D seconds it with 30 %. Group-A and Group-B comprise of 14 and 16 per cent non-teaching posts respectively (Figure 27).

Looking at the male and female distribution in these non-teaching posts as in Figure 28, here we have a picture similar to that of teaching staff and student enrolment in India as the total male non-teaching staff is more than female staff, which is 62% as opposed to merely 38% female staff.

Figure 27: Distribution of Non-Teaching Staff according to Levels
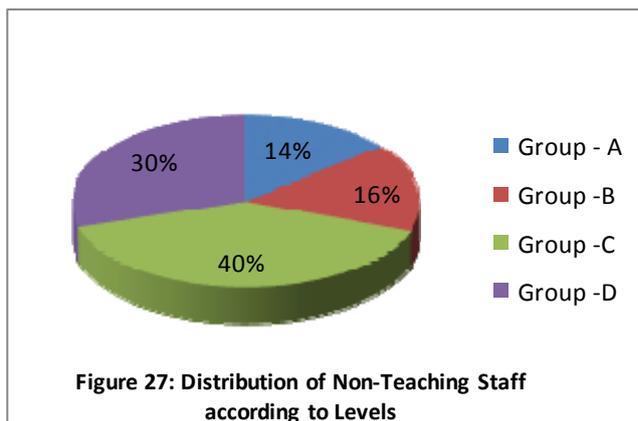

In group-wise posts, the non-teaching staffs have more male members in each group except Group D as shown in Figure 28. There are 69% males and 31% females in Group-A, while in Group-B, 66% are male staff members and 34% females staff members. In Group-C the highest male share is 73% as against 27% females, while in Group-D there are 57 % male staff.
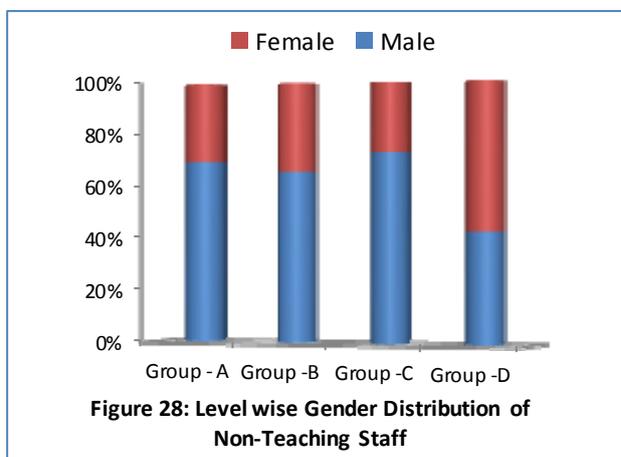

Figure 28: Level wise Gender Distribution of Non-Teaching Staff

In Uttar Pradesh the male staff share is the highest with 83% and only 17% females, while Maharashtra is close second with 78% male staff and 22% female staff. Andhra Pradesh also has a higher share of male staff with 68% and 32% females. Karnataka comes fourth in this ratio share with 65% male and 35% female staff posts while Tamil Nadu have 61% male and 39% female staff share . This same picture is reflected in the group-wise break up of data. Inversely, in

Figure 29: Category-wise Distribution of Non-Teaching Staff

Puducherry in Group-B, percentage of female non-teaching staff is (69.5%) higher than percentage of male staff (30.5%). In Arunachal Pradesh in Group-A the ratio male: female is 10:3, while in Sikkim there are 6 females and only 17 male non-teaching staff posts. In Group-B, C and D Goa has a few numbers of male non-teaching staff higher

Figure 30: Female per 100 Male among Non-Teaching staff in various categories
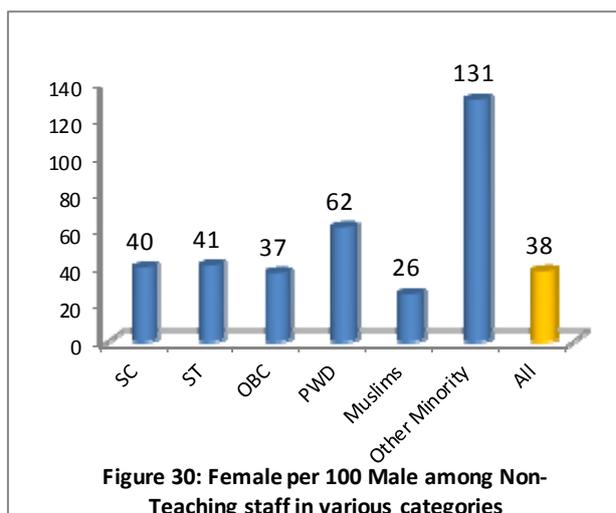

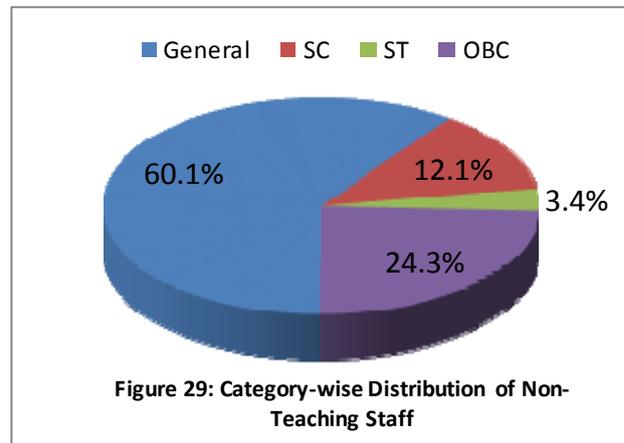

than the female staff in all the States and Union Territories of India. State-wise number of non-teaching staff in different groups in responding Institutions is given in Table 23.

In regard to Social category, 60.10% non-teaching staffs are from General category, 24.32% are from OBC, 12.15% from Scheduled Caste and 3.4% are from Scheduled Tribe. State-wise number of non-teaching staff in different categories given in Table 24.

The average number of females per 100 male non-teaching staff is 38. The highest number of females is 131 from Other Minority Group and Muslims has the lowest number of females per 100 male non-teaching staff with 26 females. SC has 40, ST has 41, OBC has 37 and PWD has 62 females, per 100 male non-teaching staff.

Among non-teaching staff, data was collected separately for the Library staff and Physical Education Staff. The number of female staff per 100 male staff is 53 and 22 for library staff and physical education staff respectively.

2.6. OUT-TURN/ EXAMINATION RESULT

2.6.1 Level-wise Out-Turn *(Based on Actual Response)*

Percentage share of student enrolment in different levels are shown in Figure 31. State-wise and level-wise Out-Turn is given in Table 33. As per the response received in the survey total number of students awarded Ph.D level degree during 2012 is 23,630 with 14,855 males and 8,775

Figure 31: Level-wise OutTurn
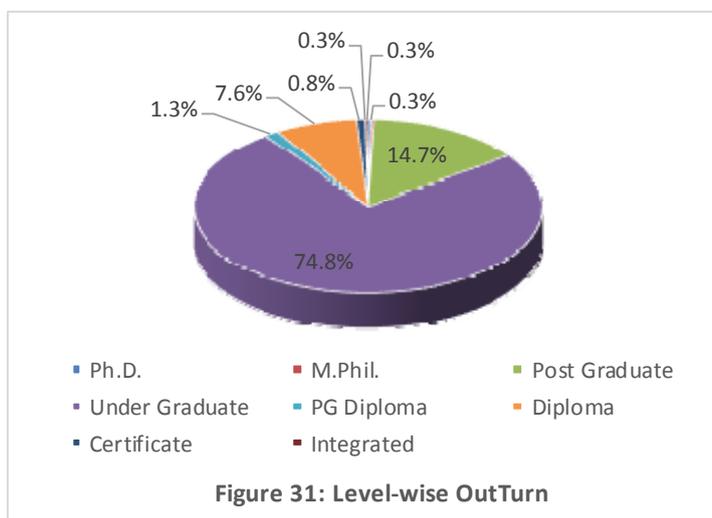

females. Uttar Pradesh has maximum number (4,965) of Students who were awarded Ph.D. level degree followed by Tamil Nadu (2,975) and Delhi (1945). 61.95 lakh students have been Graduated and 12.14 lakh students passed Post-Graduation level.

2.6.2 Programme-wise Out-Turn *(Based on Actual Response)*

B.A. degree has been awarded to 23.27 lakh students which are the highest among all Programmes with the percentage of male as 44.57%. B.Com. is the second highest with 9.15 lakh students followed by B.Sc. (8.03 Lakh). B.Tech. and B.E, degree is awarded to 3.64 lakhs and 3.30 lakhs students respectively. 33084 students have been awarded with M.B.B.S. degree and out of which 16343 are females. At Post Graduate level number of M.A. pass students is maximum (4.45 lakh) followed by M.B.A. (2.07 lakhs) and M.Sc. (2.03 lakhs). About 62648 students have been awarded M.Tech/ M.E. degree in which share of male student is more than 63%. Programme-wise out-turn on the basis of actual response is given in Table 34.

2.6.3 Discipline-wise Out-Turn *(Based on Actual Response)*

The total number of pass-outs at Undergraduate Level in major discipline/subject based on actual response is given in Table 35. The highest number of students has been graduated in Arts/ Humanities/ Social Sciences courses. The total number of students

passed-out in this are 25.3 lakh out of which 45% are males and 55% are females. Commerce is second major stream with 9.16 lakh students passed-out followed by Science with 7.81 lakh students. 6.37 lakh students have been graduated in Engineering and
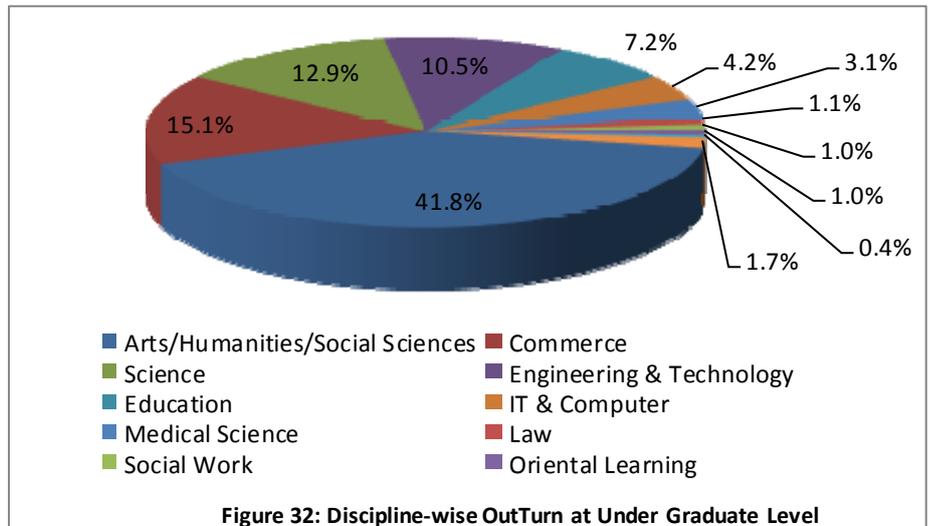

Figure 32: Discipline-wise OutTurn at Under Graduate Level

Technology stream. In Medical Science stream, there are 1.90 lakh students who have been awarded Under Graduate degree.

At Ph.D. level, maximum number of students out-turn is in Social Science stream (4597) followed by Science (4305). On the other hand at PG level maximum students out-turn is observed in Social Science stream (2.26 lakh) and Management comes at number two with 2.21 lakhs students. In Engineering & Technology and Medical Science stream out-turns are 61476 and 56087 students respectively. It is interesting to note here that at Under Graduate level ratio between these two streams is 3:1 whereas at PG level it becomes 1:0.96. Enrolment in major discipline/subject at Ph.D., M.Phil. and PG level based on actual response is given in Table 36.

2.7. ENROLMENT IN DIFFERENT TYPES OF UNIVERSITIES

There are 11 types of universities and the level wise enrolment in each type of universities, teaching departments and constituent universities/off-campus centres are given in Table 26. Total numbers of students enrolled are 58.4 lakhs. In State Public University share of Ph.D. students is large (27886) followed by Central University (18309). Share of female students is lowest for Others (1292) followed by Institutes under State Legislature Act (1330) whereas the share is highest in State Public University. Share of female students in Central University and State Public Universities are 46.34% and 42.17% respectively.

Figure 35: Level-wise Enrolment in Different Type of University
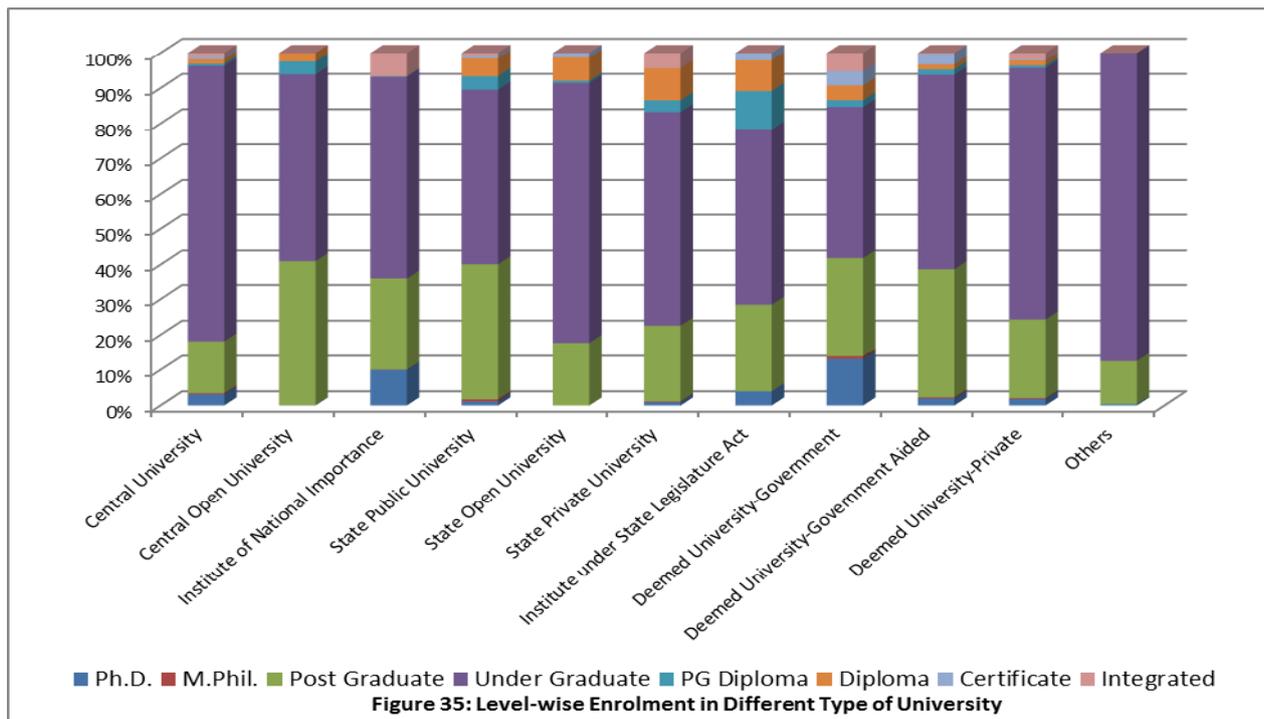

Level-wise enrolment in affiliated and constituent colleges of Central and Open universities are given in Table 26B. Categories wise enrolment in various types of universities is given in Table 27. In Table 28 enrolment in PWD and minority enrolment in various types of universities are given. There are wide variations in representations of different categories in various types of universities.

Figure 36: Gender Distribution in Enrolment in Different Type of University
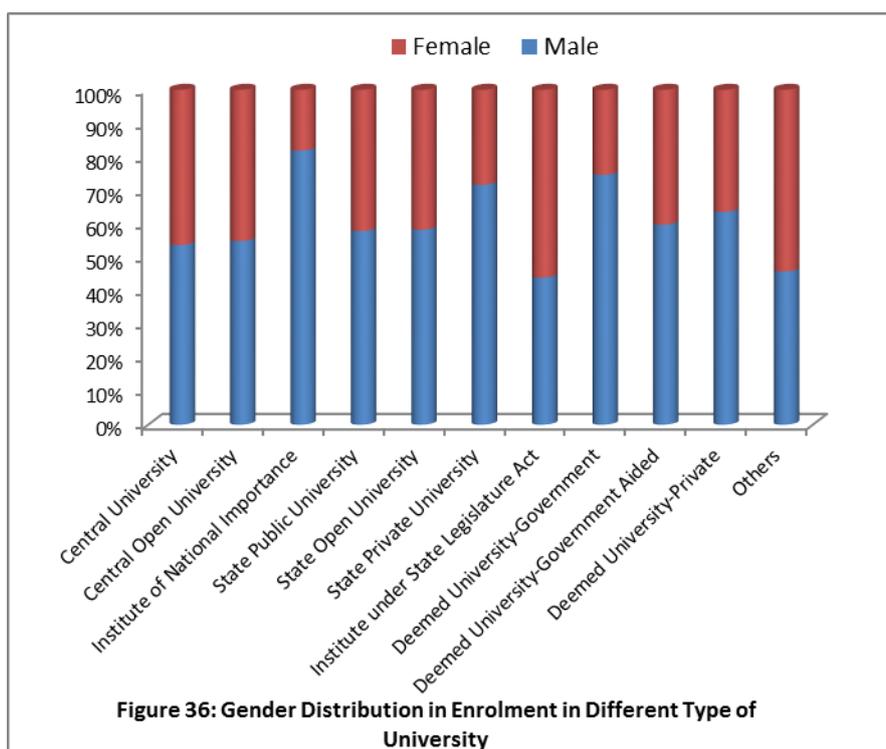

There are 1.32 lakh teachers in various types of University/Teaching departments and their constituent units/off-campus universities, out of them 42.7 thousand are female. Among various types of universities, Private universities in general have larger proportion of female teachers. In State Public universities, the proportion of undergraduate enrolment is less than 50% whereas in the Central universities it is more than 75%.

Table 39 shows the State-wise enrolment in different type of University Teaching departments and their constituent units/off-campus universities, which is around 58.4 lakh with contribution of male as 34.7 lakh (59%) and female with 23.7 lakh (41%).

2.8 INFRASTRUCTURES FOR INSTITUTION

Table 40 shows the percentage of higher education institutions having various type of infrastructure, such as Playground, Library, Laboratory, Conference Hall, etc. available with them. 84% of Universities, 88% of Colleges and 93% of Standalone institutions are maintaining playground. 94% of Universities and Colleges having library facility, whereas it is 98% for standalone institutions. Percentage of university, college and standalone institutions having laboratory are 84%, 76% and 95% respectively. In addition to this, Health Center, Computer Center, Auditorium, Conference Hall etc. are also in place with the Universities, Colleges and Standalone Institutions.

CHAPTER 3 – ESTIMATION METHODOLOGY

Three Categories of Higher Educational Institutions, namely University, College, Stand-Alone Institution are identified and surveyed. Since there is large variation in terms of structure, programme, student enrolment etc., among universities and data from more than 98% of these have been collected, no estimation has been done in case of University. List of Stand-Alone Institutions as already indicated is not firm and States are revising it frequently. Keeping this in view no estimation has been done for such Institutions also. Estimation has been done only in case of Colleges for student Enrolment and Teachers at All India level and state level by adopting sampling technique assuring the sufficiency of sample in different stratum. For student enrolment estimation, level of programme has been used a stratum while in case of teaching staff post has been used as stratum. Methodology for estimation has been described in subsequent sections.

The most important and phenomenal task for the survey during 2010-11 was to compile the list of Colleges. There are numerous players in this field, which were not easily identifiable. An exhaustive list of colleges in the country was not available and therefore university was identified as best source to prepare the list of colleges. Thus, College list was dynamically generated through University during 2010-11. Software was designed in such a manner that as soon as the university uploads its form on the server, college list was automatically populated in the data-base. All the affiliating University except the 7 have uploaded the data in year 2010-2011 and therefore almost complete list of colleges were available. During 2011-12 and onwards all the remaining affiliating Universities were also contacted and comprehensive list of colleges are prepared through Institution Management Module of the portal. Presently, in order to update the college list, request for addition of colleges (new/remaining) is received from the concerned officer and added in AISHE college list based on approval of UNO/SNO.

> College means any Institution, whether known as such or by any other name which provides for a course of study for obtaining any qualification from a university and which, in accordance with the rules and regulations of such university, is recognised as competent to provide for such course of study and present students undergoing such course of study for the examination for the award of such qualification. These are the institutions established or maintained by or admitted to the privileges of the University.
>
> Colleges are generally of two types:
>   (i)   University/Constituent College maintained by the University
>   (ii)   Affiliated College

In addition to the Affiliated and Constituent colleges, for Off-Campus Centres/ PG Centres and for Recognised Centres of Universities, DCF-II (the format in which the data was required to be submitted) was available to be filled-in. All the Constituent Colleges, the Affiliated Colleges and the Off-Campus Centres were required to fill DCF-II. Constituent units of University, primarily of Private and Deemed Universities, which are integral part of University, have also been listed by these Universities as Constituent College. However, DCF-II for such units were not required to be filled. For Recognised Centres, in normal cases, DCF-II have not been filled, but in a few cases where these are independent institutions, DCF-II have been filled.

A Off-Campus Centre/ PG Centre is a centre of the University established by it, outside the main campus (within or outside the state) operated and maintained as its constituent unit, having the University's compliment of facilities, faculty and staff. A Recognised Centre is an institution attached with the University for the purpose of awarding degree in respect of programmes being run in these institutions. e.g. Army Cadet College Wing, Indian Military Academy, Dehradun is not affiliated with any University but the degree in respect of Programmes run in the institute are awarded by Jawaharlal Nehru University.

Thus, there are four types of College/Institution, for which DCF-II have been filled:

1. *Affiliated College*
2. *Constituent College*
3. *PG and off. Campus Centre*
4. *Recognised Centre*

In bracket, numbers of such institutions during AISHE 2011-12 are given. State-wise number of colleges of different types is given in Table 38.

Although intended to cover the entire population, approximately 60% colleges' data could be collected and thus to have an idea of total College's enrolment and number of Teachers, estimation adopting proper sampling methodology, was required. Constituent Colleges are mainly located in Bihar, Jharkhand and Maharashtra and most of them have uploaded the data. Therefore, enrolment and teachers for Constituent Colleges including constituent units of University has not been estimated   For PG/Off-Campus Centres and for Recognised Centres also no estimation has been made.

Thus for only affiliated colleges, enrolment and number of teachers has been estimated based on the Stratified Sampling technique. Post-Stratification has been done, after the survey for the year 2012-2013 is closed.

Affiliated Colleges has been divided into two strata; one is Lagre College and other Small college. Large Colleges are those, which have enrolment of 3000 or more and the remaining are Small colleges. In absence of a priori information, it has been assumed

that all large colleges have uploaded the data i.e. in the population the number of large colleges is equal to the number of such colleges that have uploaded DCF-II. Thus, we have avoided over estimation of enrolment of colleges. Average enrolment at a particular Level for the colleges of a particular University has been taken to estimate the enrolment of all colleges of that University. Further, for those Universities, where affiliated colleges' response was less than 10%, state level averages have been used. This method was used as within a university because there is homogeneity in nature of colleges. The Estimation formula is given at Annexure-7.

Based on the methodology explained above, state-wise total enrolment in colleges has been done only for Under Graduate and Post Graduate level, given in Table 10. Actual enrolment in case of Affiliated Colleges, Constituent Colleges, PG/Off-Campus Centres and Recognised Centres are shown in Table 8.

For estimating number of Teachers, only those colleges have been taken into account for which enrolment has been estimated i.e. small colleges (enrolment<3000). The estimation has been done for the post of Reader/ Associate Professor and Lecturer/ Assistant Professor. Average number of teachers at these two levels for the colleges of a particular University has been taken to estimate the number of teachers of all colleges of that University. Further, for those Universities, where affiliated colleges' response was less than 10%, state level averages have been used.
