

PRESS RELEASE

The Directorate of Higher and Technical Education is proposed to conduct a webinar on DEMO AND PRESENTATION OF "AMPLE LIVE LEARN" on 08.02.2021 at 02.30 PM to 05.30 PM in association with Amrita Vishwa Vidyapeetham, Kollam and Omnex Quality Academy Chennai. AMPLE Software is a Learning and Content Management System integrated with open source e-content of various Universities / Colleges and National Programme on Technological Enhanced Learning (NPTEL). Also this software includes Outcome Based Education (OBE) with reports for NBA Accreditation. It provides an Massive Online Open Course (MOOC) and Learning Management System (LMS) Platform for teachers and students. AMPLE includes publications tracking, personalized learning and reports for management. Also reports of multiple institutions can be tracked in one dash board. Any kind of video conferencing software can be integrated with AMPLE for conducting online classes to the students.

AMPLE provides a huge amount of flexibility, transparency and user friendly experience with a few clicks when compared to other commercial product available in the market. This webinar is useful for faculties working in Colleges / Universities (both Govt. and Private), teachers working in schools, people owning education institutions and students interested to learn open online courses. It can be easily integrated with existing websites.

The academicians and other interested people can join the webinar using the following links:
